## YOUNGSTERS NO LONGER HAVE THE FREEDOM OF A NORMAL CHILDHOOD

Creating a "multi-racial society; has been used as a means to destroy our race, culture and chosen way of life. Despite constantly being told we live in a democracy we clearly do not. Whenever the public tries to make a stand it finds numerous obstacles are stacked up against it. The most wealthy, powerful and influential groups in the country are Zionists, Freemasons and organised Jewry. They investigate everyone that stands for parliament. If there is any hint they want to work in the British interest, they either ensure a media blackout is performed or they receive a high level of smears and character assassination. Therefore anyone becoming an MP is not going to work for us. The multi-racial society has led to division, confusion, a lowering of morals, a rise in murder, rape and general criminal activity. As a result our streets have become unsafe and our children have been deprived of a normal childhood.

Free will independence of thought and freedom to follow one's own inclinations are natural instincts, but are not allowed when living under a rigid dictatorship. The nanny-state has done much to deprive youngsters of a normal outdoor childhood playing among their peers. Since time immemorial, children gathered together and roamed and played without fear or government restrictions. They would play games, experiment with planks of wood and other materials. They would make go-carts, catapults, bows and arrows, tree houses and bonfires.

Childhood would mean exploring woods and fields while looking at the wildlife, fishing for tiddlers in ponds and discovering the many kinds of trees. Each child would view things differently and learn practical skills along the way. Former generations were far more aware of the world around them, the changing seasons and the variety of characters they would meet on their journeys. In short, a natural childhood encouraged development, individualism and the value of freedom.

During the past sixty years society has changed, or rather it has been changed to suit our political lords and masters. Literally from birth, the state now wants to rigidly control what is thought, what is believed and what is done. No climbing trees, no games of football on the green; if possible no school sports and certainly no competitive inter-school competitions. Mass immigration, child molestations, child murder and a rapid rise in anti-social behaviour are problems never encountered by previous generations. They have put an end to the child's right to roam and walk to school. Instead, he never leaves the company of a parent as he is driven backwards and forwards to school.

Another reason why children do not get a chance to view life from their own perspective and form their own ideas is the constant presence of television. There is a constant flow of what appears, to a child, to be factual established truths. Why does one need to think, to find out - the young viewer reasons - when everything is understood from those in the television studio? Much of what is transmitted on television is misinformation, and propaganda designed to deceive, but this idea would never cross a child's mind. As he sits at home in isolation, shut in his bedroom, he plays with his computer or absorbs whatever is on television. He's becoming more and more conditioned in a rigid nanny-state, politically correct, mental straightjacket. Many Orthodox, Jewish schools in America will not accept a child if he has a television at home, for he is likely to spread bad ideas among his classmates.

In order to further the cause of the multi-racial society, many newspapers and the BBC constantly churn out left wing propaganda. R&B, hip hop, garage music and rap are being promoted in the hope that White youngsters will latch on to it. Unfortunately, many do. We now have the ludicrous situation where White youngsters, who have been turned away from good European music, are attempting to impersonate Blacks in America. You see our impressionable youngsters copying frizzy Afro hairstyles and listening to the worst kind of Black music - which is often aggressive and anti-white. The glorification of aggressive and rebellious, unmelodic, pseudo, Black culture is furthering crime and anti-social behaviour. The lyrics often go on about giving grief to the police, being a big man with a gun, getting high on drugs and using violence to gain street credibility. With rising crime, the last thing we need is our White youngsters copying the "tough" Afro-American street culture and breaking the law. Of course, nothing would suit our politically correct masters more than a high number of Whites getting involved in what are predominantly Black kinds of crime. Anti-White politicians would then smugly be able to say that Whites are no better than blacks when it comes to street crime.

Childhood used to be considered the best time of your life. Provided youngsters were responsible they had the freedom to do more or less as they pleased, with their friends, and without responsibility. In the last sixty years children have become prisoners fearful of going out alone, while their parents act as overworked minders. Before the 1970's child abduction was rare. Currently children go missing in the UK at the rate of one every three minutes. Parents fear for their children being sexually attacked, murdered or sold. Who must be held responsible for these terrible crimes? An impenetrable self-serving club including, MPs, members of the broadcasting and entertainment industry, the judiciary, teachers, Zionists, clergymen and freemasons. In fact the same gang who imposed political-correctness, immigration, Marxism, the gay agenda, same-sex marriage, human rights laws, race equality and the EU upon the unwary public. As we might expect, all these groups have a remarkably high percentage of homosexuals among them. By allowing these most dreadful people to set our political agenda we know have a remarkably high number of people suffering from depression.

## GENDER BENDING CHEMICALS POSE A THREAT TO ALL FORMS OF LIFE

The rapid rise in the amount of gender bending chemicals used in products is seriously feminising man, animals, birds and fish. In every case serious changes have occurred in their bodies which alter them from male to partly female. There are fish with both sex organs, male birds that have abandoned their role of getting food for the chicks, leaving two females to raise the young. Some fish have changed sex completely. Bisphenol A (BPA) which is used in plastics and the female contraceptive pill are the main causes for the feminising of males. Instead of holding gay pride festivals, these victims of pollutants, should be at war with governments and the companies responsible for wrecking their lives and turning them into freaks. We need urgent action now. Unfortunately, Western governments that are under the thumb of multi-national corporations haven't sufficient interest, knowledge or ability to solve the problem. How everything has changed during the past sixty years. Growing up in the 1950's we realised that some male entertainers had female mannerisms, but it would never occur to us that two men would want a sexual relationship, the idea was too bizarre to contemplate. Perhaps the feminisation programme has been deliberately contrived to reduce the human population. Certainly there is no move to overcome the problem as you would expect.

We have ended up where this article began. Specialised government departments, scientists, secret societies, multi-national corporations and self interested groups make monumental life-changing decisions that affect us all. Yet the public has no say over what is being done and clearly no regulation is taking place. In 2017 people are falling over each other in the insane rush to merge male and female into one abomination. A school has just banned girls from wearing skirts to school so that each sex is not separately defined.
