

FEW PEOPLE UNDERSTAND WHY WE NEED TO GET OUT OF THE EU

It is not just a matter of comparing the pros and cons of separate issues. The EU is a large part of a forthcoming anti-Christ world government. It has been brought about by deceit. Most people live under the illusion that our “presumably” elected governments decide the important issues affecting their countries – they do not. Our presidents and prime ministers are selected for office by secret controllers long before they are known to the public. It is this invisible force which tells our governments what they must do. So we are secretly controlled predominantly by Zionists, Freemasons, Fabians and bankers. We don’t hear much of the Freemasons and Fabians as they act in an undercover way. But it should be clear that Zionists decide the policies of western governments and bankers control the finances. If you are old enough you will have noticed that during the past seventy five years, each time a different party comes to power there has been no change in political direction as you would expect.

The EU was set up originally as the EEC which was to be merely a trading group. While Britain had its Empire it could never have been persuaded to join. Our empire was dismantled by deceit by the four aforementioned groups with the help of Jewish communists, the fraudulent American and UK governments aided by the BBC. (Of course the US and British governments couldn’t afford to be seen involved officially.)

Starting from a mere trading bloc the EU has grown into a massive dictatorship that forces the nations it controls to implement policies that are damaging to its own people. Any hope of working in the national interest has gone. The EU has its own flag, its own constitution and is now creating its own army. The illusion of freedom for the people in the EU is rapidly vanishing. The Zionist-controlled American government has been trying to get Canada and the countries of South America to join with it to become a second part of a forthcoming world government. Since 1939 wars have been created to overthrow national leaders and replace them with world government agents. (These have been known as regime changes.)

The EU has a “one size fits all” for the value of its currency. This can be disastrous as we have seen in the economic plight of countries like Greece and Italy. It is vital for countries to control the amount of money in circulation to prevent boom and bust. What are presumed to be national banks are nothing of the kind! They are mostly privately owned, and alternately create more money than is required then drastically reduce the amount. Everyone has extra money, spends and goes into debt. The bankers then withdraw most of the money so it becomes scarce and the public struggles to survive. In the 1930’s America and Britain suffered severe depressions due to a lack of money. As soon as our secret masters wanted to go to war endless amounts of money could mysteriously be found.

The EU has already become an evil dictatorship similar to the former Soviet Union. This should come as no surprise, as the EU was set up by a few powerful Zionist manipulators. This was the same group that were responsible for the Bolshevik Revolution and the Soviet bloc that followed. These powerful and secretive people wanted to unite the countries of Western Europe with those in the Soviet Union. The British, Germans, French, Italians, Spanish and Dutch etc would never have accepted it. By temporarily given an illusion of freedom to the people of the former Soviet Union, they have subsequently been persuaded to join the EU, putting themselves back under the ruthless control of their former enemies.

While creating a rigid dictatorship, the EU’s first aim has been to destroy the White Europeans nations that have been the driving force behind the world’s development. This is being achieved by mass immigration. The EU is getting its way by taking advantage of the Christian ethic of wanting to help the unfortunate. The Europeans nations are clearly the people they need to subjugate first if they are to succeed in their anti-Christ plan. If you understand this you know why the EU must be dismantled.

There are also vital national considerations to be taken into account. It is important that the amount of money in circulation at any time is equivalent to the nations needs. If there is too much money available the public feels wealthy and overspends, when it is in short supply we have serious depressions causing enormous problems. What appear to be central or national banks are run by private individuals that charge interest for the privilege of creating the nation’s currency out of thin air. The banks need to be controlled by governments so that money can be provided free of interest and regulated to the amount the nations needs. Without debt-burden the nation will become wealthy. Out of the EU we would also be free of VAT tax, which is currently 17.5 percent extra on everything you buy or have repaired. There are many things that a nation needs to do in its own interest. It cannot while it has to conform to regulations imposed by a bloc state.

WHAT WE NEED TO DO ONCE WE BREAK FREE

1. Stop uncontrolled immigration. Put the British people first in their own country and end the lunacy of “positive” discrimination. The EU’s mass immigration programme is nothing less than a means of bringing about the genocide of the white Europeans. Causing the deliberate genocide of a nation is recognised as a serious crime.
2. Improve the standards in our schools and remove the Marxist, Zionist and subversive influences.
3. Put the NHS under the control of British specialists who are the most, skilled, knowledgeable and experienced in this field.
4. Import only goods that are vital and produce as much for ourselves as we can.
5. Crackdown on foreign criminals, murderers, terrorists, muggers and subversives! Restore adequate penalties.
6. Use overseas aid money to pay for immigrants who want to go home. Also use aid money to help third-world people to develop their own countries in a positive way.
7. Stop supporting the American government in its maniacal desire to develop larger and more powerful weapons. Create peace between nations and work together to solve the world’s problems, including the poisoning of our planet by chemicals, toxins, and plastic.
8. A vicar writes “I cannot openly identify with any patriotic parties for fear of losing my position.” Many people are in fear of speaking the truth due to the likelihood of reprisal such as loss of job, loss of house or prosecution by our enemy-run courts. Parliament under Zionist-control is extinguishing the people’s instinct for national survival. It has been made a criminal offence to act to ensure the survival of our race and nation. This dreadful problem must be addressed.

We can solve none of these problems until we regain control of our country.
