ACCORDING TO PARLIAMENT

THERE IS NO PART OF ENGLAND WE CAN CALL OUR OWN

Vicious street battles between English and Asian youths took place in Windsor during October 2006. Four days of riots began when twenty Asian thugs attacked Karen Hayes and her 18-year-old daughter Emily, with iron bars, pitchforks and baseball bats. Prior to this attack, Karen's 15-year-old son and his friend had been beaten up by Muslims. The assailants in both cases are believed to be part of the same gang. Mrs Hayes stated that the attack in which she feared she would be killed was unprovoked, and of a racist nature. Predictably, anti-white police chiefs said it was unlikely those responsible for the attacks on the English would be brought to justice.

Tensions started building up in 2002, when Sardar Hussain sought to convert an office building into a mosque and Islamic education centre. These premises are used by a hard-core of fundamentalist fanatics who want to take over the town by force. There is evidence that Muslim street-fighters travel hundreds of miles to take part in violent confrontations just as black Africans do.

Tempers have risen in the Royal Borough of Windsor, since Muslims announced plans to consolidate their position by building a mosque. The white-robed thugs who attacked Mrs Hayes and her daughter had come from the temporary mosque, a so-called haven of religion. This current Muslim conflict is not simply a war over religion. It is a battle over English territory and like similar territorial disputes in Palestine and Cyprus the problem is not going to go away.

Muslims are rightly angry that British and American troops have trespassed into their lands. The mass media is always ready to sympathise with Arabs over the forced occupation of their countries which should never have taken place. Clearly, Muslims are not prepared to have a decadent world-government tyranny imposed upon them. So why shouldn't we Britons oppose the alien occupation of our country? Why should we tolerate being ruled by an anti-Christian government that hates us? Removing the invaders is the only way of restoring order and peace of mind. This, however, is the one option that our enemies who control Parliament will not consider, no matter how violent places like Windsor become.

These Windsor race riots came only a week after the Queen converted a room in Windsor castle into a Muslim prayer room. No doubt the elation this caused in the Muslim community helped trigger the attacks. The Royal Family has become part of the problem we cannot expect them to come to our aid in difficult times. The House of Windsor never had the courage to offer asylum to their close royal relatives at the time of the Russian revolution. Instead they left them to be massacred by communists. The reason they gave for this seemingly cowardly action was that Britain was itself under threat of a communist revolution of its own. Although our nation staved off a communist takeover at that time, Britain had fallen into the hands of a virtual communist/Zionist dictatorship by 1939. If we had not there would have been no second world war and we would not have been forced to snuggle up with our "new found friend and ally" the mass murderer Joseph Stalin. Unlike the bloody revolution which saw communists take power in Russia, the British socialist revolution was brought about by subterfuge and stealth.

Muslims are not the only ones intent on stealing our land. Various other alien groups have set up camp within our borders and they too are determined to claim large areas of the UK. Parliament has opened up our borders to make it possible. Like armies moving in the night various alien nations have steadily built up their numbers. They have entrenched themselves over the years into positions where they confidently feel they have the match of the British. Muslims, Hindus, Jews and Sikhs have the advantage that, unlike us, they are not encumbered and tied down with Parliament's vicious race laws.

Kruschev, the Soviet Russian leader said many years ago that the West would be destroyed by our own hands. Much to our dismay his prophecy seems to be coming true. Our people have put themselves into a dire predicament, simply because too many have accepted socialist ideas, and as a result been railroaded into following a communist, new world order agenda. This deadly plan has been enthusiastically lauded for many years by Liberals, Socialists, neo-Conservatives as well as the mass media. The appalling results of left-wing, multi-racial madness are all around us, yet still large sections of the public take more notice of what they read in newspapers and see on television, rather than believe what they see with their own eyes.

We should have put an end to the anti-British "multi-racial" programme as soon as it started in the early 1960s. For over half a century, too many people have stood idly by, while self-serving politicians have created problem after problem with their fanatical race-obsessed agenda. What we are witnessing is an alien invasion and takeover of our country, organised and directed by the very people who have been elected to look after our interests. No matter how much the invasion costs the taxpayers, how many deaths result, or what degree of suffering is inflicted on the indigenous British, the "swamping" of our country goes on regardless.

Public apathy has been read as weakness. This has given our enemies supreme confidence. As a result, they have opened the floodgates completely and offered just about every foreigner the right to come and live here despite the fact that public services have been unable to cope with the burgeoning population. The government still has plans to bring in many millions more aliens as soon as possible. The three major parties all want to build millions of new houses to accommodate them. Yet despite our ever-growing population many schools, hospitals, libraries and fire stations have been closed and demolished, while much of our farmland is under threat from developers.
