THE CHARGES AGAINST PARLIAMENT

from theflameuk.com

1. All Parliamentõs decision-makers owe their allegiance to bankers, multi-national corporations or sinister power-grabbing organisations. For this reason, they have ambitions which are mostly in conflict with the needs and desires of the people they have been elected to represent.

2. Parliament committed the highest form of treason when it passed control of our country to a foreign body namely (the EU) over which we have no control. Under the original British Constitution, anyone even trying to do this would have been executed. Both Labour and Conservative governments have had the impertinence to say that the public will not even be allowed to voice its opinion on this most important issue.

3. Not only is Parliament subservient to the EU, but for generations it has been almost completely controlled by the forces of international Zionism. Even backbenchers have allowed this unacceptable situation to continue in order to secure their own positions.

4. Going against our Christian principles, Parliament encouraged Jewish bankers to set up a financial system of usury that has been robbing the public ever since.

5. Parliament has continually used bribery, threats, intimidation, character assassination and press censorship to prevent the most capable and trustworthy Britons from making headway in politics. It has also used rowdy, left-wing mobs to attack individuals and organisations which it sees as a threat to its position.

6. During the 1960õs, opposition to our rulersô anti-British activities began to grow. To overcome this, Parliament opened Britainõs borders and brought as many different foreigners into our country as quickly as it could. These immigrants have been given votes that they are not entitled to, and then organised by the main political parties to outvote the indigenous British wherever possible.

7. In 1939, parliamentarian Winston Churchill, with others, took control of Britainõs armed forces on behalf of the Zionist Federation. They still control them today, which is why our troops are continually engaged in conflicts that are of no concern to us. The military is being prevented from defending our borders which should be its main function.

8. Since 1950, Parliament has being doing its utmost to destroy our culture and abolish the rules, that evolved over centuries, that made the UK a civilised society. The removal of the death penalty, loss of discipline in schools and encouragement of bad behavior are just three of the many ways that the UK is increasingly being turned into a degenerate, violent and dysfunctional society.

9. Having bankrupted Britain with the cost of the second-world-war, Parliament then began to help sabotage our aircraft and shipbuilding industries. Margaret Thatcherõs government encouraged alien businessmen to strip Britain of its most highly-regarded and long-established companies. Parliament also sold public utility companies that were not itõs to sell. You will remember that this smash and grab of Britainõs assets was aptly referred to at the time as ñselling the family silverò

10. Parliament has politicised the army, police forces and the NHS in order to change them from their original role to a chaotic model that suits it.

11. For the past fifty years Parliament has been trying to de-Christianise the UK. It began with banning Christian morning assemblies and nativity plays in schools. Anti-Christian ideas have been continually disseminated through the television and cinema. Wearing a small crucifix has seen many wearers sacked, while the burqa, which can cover the face, is deemed perfectly acceptable. It has been noticeable during the past few years that red and green Christmas lights have been disappearing and that blue and white decoration, the Jewish colours, are now predominant. The Jewish Chanukah festival is getting bigger every year while the meaning of Christmas is being lost. It has been commercialized for the benefit of big business to the degree that Hindus, Muslims and even Jews feel comfortable celebrating it. For most people, Christmas has become merely a time of feasts, get-togethers and present-giving. The ultimate aim of Parliament is to officially make an anti-Christ form of Judaism the dominant credo, with the Islamic religion second, and Christianity reduced to a meaningless babble of liberal/socialist dogma, third.

That an anti-religious form of Judaism dictates to Parliament is easy to see. News laws have recently been introduced to impose filth, perversion and depravity onto an unwilling public. This has been done in the name of democracy. Because we no longer have independent national governments, the same legislation is passed in many countries at the same time.

Parliament must be replaced with a body of constituency representatives as soon as possible.

Parliament is committing many other acts of treason, including knowingly endangering the publicõs health in several ways. I have listed enough here. You will find out much more by reading this website. But here first is evidence of David Milliband doing his utmost to downgrade Christianity while advancing and respectingthe Muslim and Jewish religions.

To think this anti-British Marxist, idiot could easily have become Prime Minister!

David Milliband sent Foreign Office greetings around the world for Ramadan. He also broadcast a New Year message for the Jewish New Year, but did not send out anything on Christmas Day or Easter. He was also accused of ignoring St Georgeõs Day, while giving Scotlandõs First Minister, Alex Salmond, ñplenty of FCO airspaceòto wish Scots a happy St Andrewõs Day. This anti-English and anti-Christian attitude is not peculiar to the Jewish Millibands. It is rife throughout the political establishment and the BBC.

There are dozens of subversive and undesirable left-wing organisations which are nearly all unwittingly funded by the taxpayer. Many of todayõs prominent politicians have belonged to bodies which sought to legalise paedophile activity. An organisation called ñPIEòwhich stands for Paedophile Information Exchange, had a thousand liberal/socialist followers. Among these perverts were Deputy Labour Party leaderHarriet Harman, Shadow Housing Minister Jack Dromey, and former Health Secretary Patricia Hewitt. Despite these people being exposed in of the most widely-read daily newspapers they have all still managed to keep their prestigious jobs.

Around the time in question the Chairman of the National Council for Civil Liberties was Henry Hodge. (He is now married to Margaret Hodge, who is a member of the Oppenheimer German-Jewish banking dynasty.) The NCCL had close associations with PIE, which had also aligned itself with the homosexual lobby. In 1975, the NCCL conference was addressed by the PIE chairman where a motion was passed declaring that ñawareness and acceptance of the sexuality of children is an essential part of the liberation of the young homosexual.ò The Liberal Peer, Lord Avebury held a meeting in London during the 1970õs where it was suggested that sex with six-year-olds should not only be allowed but encouraged.

How do such evil people manage to get elected? It is because too many people vote for a party, knowing nothing at all about the candidate, or the evil character of the organisation they represent.

Below is that damning report that appeared in the Daily Mail on the 14th December 2013. Yet even this didnõt see them kicked out of politics!

R PAEDOPHILES

Disturbing: Patricia Hewitt, and Harriet Harman with her husband Jack Dromey

'The real need is to change the attitude that all paedophilia results in lasting harm'

It sounds too grotesque to be true. But Labour Deputy Harriet Harman, her shadow minister husband and former Health Secretary Patricia Hewitt were all linked to a group lobbying for the right to have sex with children
