

WHY DOESN'T THE CHURCH MENTION THIS MOST IMPORTANT MESSAGE ANY MORE?

Every Christian should know that internationalism is the means by which anti-Christ Jews and their communist allies are taking control of the world. Through internationalism they are able to take power away from nations, and transfer it to international organisations that they control, such as the EU, NATO, the United Nations, the IMF, World Bank and Bilderbergers. Angela Merkel blocks Christian nationalists by promoting the internationalist agenda. She worked enthusiastically promoting the communist regime in East Germany before its fall. In contrast Vladimir Putin who had a similar start in his working life has been seriously promoting Christianity throughout Russia. This is why the American government and the mass media have been trying to create hostility toward him.

Merkel the Red footsoldier

Angela Merkel was annoyed when this photograph appeared in the press showing her enthusiastically taking part in an East German Communist Party Parade.

Merkel's original name was Angela Kasner, she was also alleged to have been a propaganda secretary for the communist youth movement. The photograph was found by Sonja Feisberg, an old school-friend, who handed it to the German Press. Since being elected as Germany's leader she has pressed ahead with the international, communist agenda. While East Germany was ruled by communists, West Germany had been placed firmly under the Zionist jackboot in 1945. Like all Western leaders Angela Merkel only gets

elected because she is promoted by the Zionist-controlled media and press.

You may wonder why Christian church leaders no longer warn their congregations of the imminent threat from anti-Christ Jews, for it is clearly written in the bible. It is because our enemy work as gatekeepers, deciding who will take up appointments in the churches, in the same way they prevent the best of our people from entering parliament. It was commonly known that when Jews return to the holy land it will start the rise of the anti-Christ. That of course happened in 1948 when Zionists set up the state of Israel. The majority of Jews are not involved in this, while many Orthodox Jews are firmly anti-Zionist. This goes to show just how much power a small group of incredibly wealthy and fanatical Jews have. Of course they are aided and abetted by many non-Jews who are naive, unscrupulous, evil, greedy or vain.

You don't have to be a religious fanatic to realise that Zionist Jews and secret societies have come to dominate the politics of the West, and we are all suffering severely as a result. They control our governments, all forms of entertainment, commerce, science, news agencies, and communications, where they perpetually broadcast strategies designed to further their aim of forming a satanic world government.

They are incredibly cunning and devious. They have set up what appears to be a new group asking "Who owns the UK media?" They call themselves "the media reform coalition". This would give the impression that it has been set up by concerned members of the public wanting a more representative system. In fact it is comprised of some of the most evil organisations that have been corrupting minds while destroying the UK and its moral institutions for decades.

This body includes the New Internationalist, the London School of Economics, The Joseph Rowntree Trust, The National Union of Journalists, Youth Media Agency, Goldsmiths of London, Open Society Foundation, and the Co-Operative Bank. They are basically world-government-promoting Zionist and communist groups.

The church never mentions the fact that Oliver Cromwell conspired with Jewish usurers on mainland Europe, to allow them to illegally re-enter England. Once here they created the civil war to get rid of the king. Sixty years later they got away with setting up The Bank of England on a fraudulent system of usury. This goes against basic Christian principles, for not only does it allow bankers to steal money from governments and individuals, but it gives total power to those operating the money creation swindle.

Once the Jews returned to England our troubles began. By being cunning, ruthless, dishonest, demanding and racist with an unhealthy worship of money, they eventually managed to gain control of our country. The most capable and virtuous Briton stands no chance of becoming a political leader. For he would be at a disadvantage by being straightforward and telling the truth. Seeing him as a threat Zionist Jews would block his route preventing him from getting elected. This isn't unique to England Jews have had to be kicked out of every country in Western Europe when the indigenous people reached the point of suffering beyond endurance. See how Zionists who are in control have promoted numerous non-white immigrants to superior positions above the indigenous British. Unable to understand or cope with the situation a high percentage of our people have become depressed and mentally disturbed. If they learn the truth they will be able to deal with the situation and set themselves free. This is what Zionists fear the most which is why they have stepped up the use of their media propaganda-machine. Don't be frightened by their fake shield of anti-Semitism we have to prevent a hostile takeover of our country.
